### ANTIQUE MICROSCOPY PRINT

An original antique microbiology print detailing microorganisms found in urine, including urogenital tuberculosis, micrococcus luteus, sarcina, gonococcus, penicillium glaucum and yeast. This antique bookplate was sourced from a German language medical encyclopaedia published in 1907. The language on the print is German.

- (1) Mycobacterium tuberculosis
- (2) Micrococcus luteus
- (3) Sarcinia
- (4) Neisseria gonorrhoea
- (5) Penicillium glaucum
- (6) Yeast
